- Are you looking for information regarding Ohio's Dyslexia Law?
- Are you wondering how this may affect your child?

On January 9, 2021 Governor Mike DeWine signed House Bill 436 into law. This law addresses universal screening for early identification of students with dyslexia. Dyslexia is no longer a mystery. MRI scans and other tools of neuroscience have advanced our understanding in the last decade. We now know what to do to help students become skilled, confident learners. Parents need to understand the dyslexia law so they can advocate for their children and communicate with educators effectively.
